

**Tie-rod kit classification (appendix "A")**

Tie rod kit allows the correct assembly of sectional valves. Tie rod's length depends on the number of sections; each valve is assembled with tie rod kits including a tie rod, two nuts and two washers. D4 requires 4 tie-rod kits.

Tie rod kit	Order Code	Lenght (mm)	Clamping Torque (Nm)	Quantity
D4/1	300104001	140		
D4/2	300104002	180		
D4/3	300104003	220		
D4/4	300104004	260		
D4/5	300104005	300		
D4/6	300104006	340		
D4/7	300104007	380		
D4/8	300104008	420		
D4/9	300104009	460		
D4/10	300104010	500		
D4/11	300104011	540		
D4/12	300104012	580
