

## FEED MOTORS

Waratah harvester-head feed motors are state of the art and highly efficient at any speed or operating pressure. They are designed and tested to work in the most extreme operating conditions and require very little maintenance. Our portfolio includes feed motors from 250cc up to 1404cc to best match your harvester head.

# SAW MOTORS

Our portfolio includes a wide selection of original SuperCut saw motors. Waratah saw motors deliver reliable cutting power to your harvester head. They are equipped with Power Boost™ functionality for more power, better performance and increased reliability as well as less friction, heat and oil compression.

## Saw Motors

PART NUMBER	TITLE	HARVESTER HEAD	ADDITIONAL INFO
F687445	Waratah Power Boost SuperCut	H412, H413/H423, H414/H424, H415/H425, H480C, H290/H219, H270, HTH460	19cc
